Please explain your interest in serving on the above named board:

My service on state councils has focused on strengthening the quality and efficiency of programs that support individuals with disabilities. In those roles, I have worked to ensure that services are effective, fiscally responsible, and aligned with the real needs of the people they are intended to serve. I hope to bring the same practical, experience-based approach to this board, contributing my professional background and personal perspective as someone living with a disability to help identify common-sense ways to improve accessibility within our community. In my work as part of the staff at the Community Shelter of Union County, I see firsthand how thoughtful policy and strong partnerships can make a meaningful difference for residents facing significant challenges. I would welcome the opportunity to serve on this board to support local solutions, strengthen community collaboration, and help ensure that those with the greatest needs are served in a way that reflects our county's values of transparency, innovation, and being purpose oriented

Any other comments:

Over the years, I've worked for and volunteered with municipal, county, and state government, as well as with many nonprofits throughout our community, serving in roles requiring strategic planning, advisement, community engagement, public policy, and leadership skills.
